

SmartCOMM™ Hosted IP Complete

Aastra 6757i Phone Reference Guide

Soft Keys

These 12 buttons are programmable. Each button can be assigned a different function that can be programmed by a user or a business group administrator.

Goodbye key

Ends an active call or sends an incoming call directly to voice mail. You may press this button at any time while in a menu to return to your home screen.

Options key

Accesses options to customize your phone.

Hold key

Places an active call on hold. To retrieve a held call, press the call appearance button beside the line that is flashing.

Redial key

Redials up to 100 previously dialed numbers. Pressing the Redial key twice simultaneously redials the last dialed number.

Volume keys

Changes the volume for the handset, headset, ringer, and hands free speaker.

Navigation Keys

These buttons let you scroll through menu selections.

Message Waiting Indicator

Flashes red when you receive a call or when you have a message waiting.

Line Call Appearance keys

Connects you to a line or call. The Aastra 57i IP phone supports up to 4 line keys.

Speaker key

Activates hands free for making and receiving calls without lifting the handset. When the audio mode option is set, this key is used to switch between a headset and the hands free speakerphone.

Mute key

Mutes the call so that your caller cannot hear you (the light indicator flashes when the microphone is on mute).
