

Grid4 Business Communication Solutions

SmartCOMM®

Grid4 is an IP communications carrier and managed IT services provider with local expertise and global reach.

Solving technology challenges with innovative solutions.

Smart Brands Trusting Smarter Communications

Cloud Phone System

A future-proof alternative to on-premise phone systems. Grid4 has been delivering cloud phone system solutions to businesses since 2007. Communicate smarter with more ease and flexibility, maximizing productivity and performance. With Microsoft Teams and MaX UC integrated Business Mobility allows you to work anywhere and on any device.

Managed IT Solutions

Grid4's Managed IT Solutions optimize the efficiency, productivity, and agility of your IT environment, so you can focus on growing your organization.

VoIP & SIP Trunking

Grid4 has over 20 years of experience delivering the highest quality SIP and PRI VoIP solutions via a carrier grade softswitch and network.

MPLS IP VPN

Connect your employees at multiple locations on a dedicated and reliable private network.

SD-WAN

Maximize your uptime by utilizing multiple Internet connections, while lowering operational costs and efficiently monitoring bandwidth usage for single or multi-site deployments.

Dedicated Internet Access

As a true carrier, Grid4's interconnected network leverages multiple tier-1 networks across the globe to deliver high-speed Internet access solutions such as Fiber and Fixed Wireless.

Wireless Broadband

A revolutionary fiber alternative delivering maximum carrier-grade, SLA backed bandwidth.

Agile, Streamlined Deployment

Grid4 provides the necessary tools and training to increase productivity and ensure success.
