

Grid4 SmartCOMM® CLOUD PHONE SYSTEM

A smarter cloud-based phone system with all the productivity applications your business needs

Work Confidently with an
Intelligent, Powerful and
Proven —
Cloud Phone System
— That Saves You Money
While You Work Smarter.

STATEFUL, RELIABLE AND SECURE CLOUD PHONE SYSTEM

Easily manage your entire phone system anytime and anywhere through a simple, online user interface, while accessing productivity applications all in the cloud, providing a smart UCaaS solution.

BUSINESS MOBILITY ANYWHERE ON ANY DEVICE

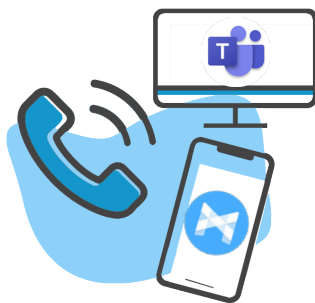

Make calls through MaX UC or Microsoft Teams on any mobile device through any Internet connection. Leveraging features of Grid4's SmartCOMM® CPS allows greater flexibility, with access from any device (smart phone, iPad, Desktop) at the office, at home, or while traveling.

PREDICTABLE COST OF OWNERSHIP

Grid4 performs all upgrades and removes all license fees and maintenance costs while eliminating capital expense and providing affordable calling plans.

AGILE, STREAMLINED DEPLOYMENT

Grid4's implementation team provides the necessary tools and training to increase business productivity quickly. Our teams work with your schedule to ensure success.

TRUSTED, RELIABLE AND SECURE

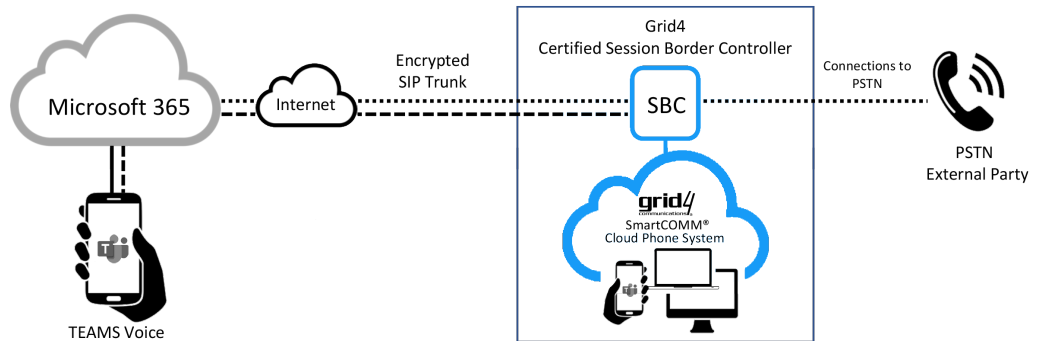

Unlike other providers, Grid4 Communications® is a telecommunications carrier and a Managed IT services provider, this ensures your organization receives competitive calling plans as well as industry leading technical services - all from one source.

- Grid4 is a Microsoft Certified Partner which provides customers with the expertise and comfort of knowing trusted, local support is immediately available.

GRID4 & MICROSOFT TEAMS INTEGRATION

Grid4 native Direct Routing integration enables your employees to make and receive calls through MS Teams, guaranteeing secure and reliable communications between Teams and Grid4's network.

- Grid4's affordable Calling Plans, Microsoft certified support team, and native integrations ensure reliable system functionality.

Grid4 SmartCOMM® Business Solutions

Cloud Phone System

A future-proof alternative to on-premise phone systems. Grid4 has been delivering cloud phone system solutions to businesses since 2007. Communicate smarter with more ease and flexibility, maximizing productivity and performance.

IP Voice (VoIP)

Grid4 has over 20 years of experience delivering the highest quality SIP and PRI VoIP solutions via a carrier grade softswitch and network.

MPLS IP-VPN

Connect your employees at multiple locations on a dedicated and reliable private network.

SD-WAN

Maximize your uptime by utilizing multiple Internet connections, while lowering operational costs and efficiently monitoring bandwidth usage for single or multi-site deployments.

Dedicated Internet Access

As a true carrier, Grid4's interconnected network leverages multiple tier-1 networks across the globe to deliver high-speed Internet access solutions.

Managed IT Solutions

Grid4's Managed IT Solutions optimize the efficiency, productivity, and agility of your IT environment, so you can focus on growing your organization.

Our highly knowledgeable team provides strategic guidance, best practices, lifecycle services, network monitoring, comprehensive support, and more to help maintain your infrastructure, reduce costs, and minimize risk.
