

# Grid4 SmartCOMM® FIXED WIRELESS BROADBAND

Gigabit Internet solution delivering maximum, carrier-grade SLA backed bandwidth.

## WIRELESS BROADBAND QUICK FACTS

- Guaranteed 99.99% Uptime with a SLA and fully supports all types of voice traffic.
- Operates in different frequencies than satellite television and WIFI.
- Not affected by heavy rain & fog like satellite television.
- Uses multiple encrypted radio frequencies based on needs of customer (distance, etc.).
- Encryption is certified as FIPS 197 compliant using DES-56 bit and AES-128 bit over-the-air encryption.

## GUARANTEED SPEED

SLA-backed 99.99% uptime delivers gigabit speeds suited for mission critical voice and data services.

## HIGH EFFICIENCY BANDWIDTH

Dedicated bandwidth delivered over private links with extremely low latency.

## QUICK INSTALLATION

Complete installation of wireless broadband in 7 to 10 business days as opposed to the months often required for a fiber installation.

## MPLS ENABLED

Can be seamlessly integrated with SmartCOMM® VoIP, SIP Trunks and SmartCOMM® Cloud Phone System. Each link is private and secure.

## COST EFFECTIVE

20-40% savings compared to other fiber with no construction costs.

## SCALABLE SPEEDS

Can be easily increased with a few keystrokes. Pay for the bandwidth you need today, knowing you can easily add capacity when you need it.

## SECURE

AES (Advanced Encryption Standard) An over-the-air link 128-bit encryption option.

# Smarter Communications That's Reliable and Provides Savings

## TRUSTED, RELIABLE AND SECURE

Unlike other providers, Grid4 Communications® is a telecommunications carrier and a Managed IT services provider, this ensures your organization receives competitive calling plans as well as industry leading technical services - all from one source.

- Grid4 is a Microsoft Certified Partner which provides customers with the expertise and comfort of knowing trusted, local support is immediately available.

## AGILE, STREAMLINED DEPLOYMENT

Grid4's implementation team provides the necessary tools and training to increase business productivity quickly. Our teams work with your schedule to ensure success.

How Fixed Wireless Broadband Works

## Grid4 SmartCOMM® Business Solutions

### Cloud Phone System

A future-proof alternative to on-premise phone systems. Grid4 has been delivering cloud phone system solutions to businesses since 2007. Communicate smarter with more ease and flexibility, maximizing productivity and performance.

### IP Voice (VoIP)

Grid4 has over 20 years of experience delivering the highest quality SIP and PRI VoIP solutions via a carrier grade softswitch and network.

### MPLS IP-VPN

Connect your employees at multiple locations on a dedicated and reliable private network.

### SD-WAN

Maximize your uptime by utilizing multiple Internet connections, while lowering operational costs and efficiently monitoring bandwidth usage for single or multi-site deployments.

### Dedicated Internet Access

As a true carrier, Grid4's interconnected network leverages multiple tier-1 networks across the globe to deliver high-speed Internet access solutions.

### Managed IT Solutions

Grid4's Managed IT Solutions optimize the efficiency, productivity, and agility of your IT environment, so you can focus on growing your organization.

Our highly knowledgeable team provides strategic guidance, best practices, lifecycle services, network monitoring, comprehensive support, and more to help maintain your infrastructure, reduce costs, and minimize risk.
